SKILLS

Technical skills

- React.js
- Next.js
- Node.js
- Express.js
- MongoDB
- JavaScript
- TypeScript
- Redux
- Tailwind CSS
- Axios
- Rest API
- Git

EDUCATION

Bsc Information Technology

University of Calicut

2021 – 2024 | Kerala, India

EXPERIENCE

MERN stack Intern

BridgeOn solutions

May 2024 – present

Manjeri, Kerala

- Contributed to multiple projects including a full stack project management application using NextJs.
- Attended daily scrum meetings and gained proficiency in Agile methodology, contributing to a 30% improvement in project delivery speed.

PROJECTS

DOQUE

Project management Application

Comprehensive project management system featuring streamlined capabilities for organizing their projects and tracking over 200 tasks within customizable spaces, enhancing user workflow efficiency by significant margins.

Contributions:

- Developed the spaces and tasks management section, implementing drag-and-drop functionality that enabled users to manage tasks with greater ease.
- Implemented secure user authentication in the backend, including email verification to ensure account validation and security.
- Led the team as Scrum Master, facilitating sprint planning, daily stand-ups, and retrospectives.

Tech Stack: Next.js, TypeScript, Redux, Express.js, MongoDB.

COMFORT CRAFT

Full stack E-commerce web application for furniture

A furniture e-commerce platform featuring product browsing, cart, wishlist, secure Stripe payment processing, and an admin interface for managing users, products, and orders.

Features:

- Secure JWT-based user authentication.
- Optimized the checkout process by integrating Stripe for secure and seamless payments.
- Developed an admin panel with secure access for efficient management of users, products, and orders.
- Integrated Redux for state management improving overall application performance and data flow efficiency.

Tech stack: MERN Stack, Tailwind CSS, Redux, Axios, Stripe
